

NOVA

Alutex Awning Systems. Everything else... is just shade.

In recent years retractable awnings have become more and more an element of elegance in external home decoration. Today, with the largest selection of outdoor vibrant and durable fabrics ever, every home can benefit from the presence of a retractable awning. Born to provide shade on command, saving on utility cost, and to protect you and your family from the undesired UV sun effects, retractable awnings today have become part of our established residential outdoor culture.

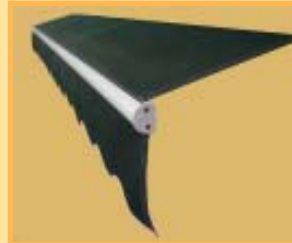

Available only at selected Authorized Alutex Dealers also for professional installation, Nova offers all the fundamental features that anyone should look for in a typical retractable lateral arm, without compromising quality strength, attention to details, or limitation in fabric selection.

With its resistant white powder coated aluminum frame, stainless steel hardware, double cable arms, electronic fabric sewing and ultrasound edge cutting to avoid fraying effects, Nova is Alutex's reliable and affordable response to price sensitive customers.

Alutex, one of the major manufacturers of retractable awnings today on the market, with Nova extends its presence to the ever-growing demand of "Do-It-Yourself" products.

Ask your Authorized Alutex Dealer about Nova and for a free consultation. There is no need to compromise quality to expect an affordable awning.

CAUTIONARY AND IMPORTANT OPERATING INFORMATION: Retractable Awnings contain strong springs under tension. Retractable awnings are specifically designed to be retracted under inclement weather conditions and be used primarily for sun protection. They are not designed to withstand high winds, heavy rain or snow. During those times, awnings must be fully retracted to prevent damages not covered by warranty.
